Program Overview

The Federal Risk and Authorization Management Program (FedRAMP) was established in 2011 to provide a cost effective, risk-based approach for the adoption and use of cloud services by the Federal Government. FedRAMP empowers agencies to use modern cloud technologies, with emphasis on security and protection of federal information.
1.0 The FedRAMP Logo

GENERAL GUIDELINES

2. The FedRAMP PMO will authorize an entity’s ability to use the FedRAMP logo. The authorization will detail the specific circumstance(s) when an organization can use the FedRAMP logo.

3. The FedRAMP logo may never be used in any manner that would imply government endorsement of a company, its products, or its services. Neither the logo nor the FedRAMP name may be used in any other company name, product name, service name, domain name, or website title.

4. The logo may not be altered, cut apart, separated, or otherwise distorted in perspective or appearance.

5. The logo may never be used in a manner that would disparage FedRAMP or any government body.

7. Authorized organizations are responsible for the proper use of the FedRAMP logo as outlined in this document. This includes but is not limited to the use by any representatives, such as advertising agencies, system integrators, resellers, partners, etc.
2.0

Logo Application

CLEAR SPACE

We require the minimum amount of clear space to be no less than 50% of the width of the logo. No other graphic elements, such as text or images, can appear in this area.

ALTERNATIVE LOGOS

Inverse
White to background color must have a color contrast of 4.5:1.
See page 5

One Color
Only to be used when one color is required/requested—often done for cost saving purposes

Stamp
Only for use when being placed on a product or graphic as decorative and clearly produced by or associated with FedRAMP

for busy backgrounds

for simple backgrounds
incorrect logo usage

Don’t:

1. Change logo’s orientation.
2. Add extraneous effects to the logo. This includes but is not limited to: bevel and emboss, lighting effects.
3. Place the logo on busy imagery.
4. Scale the logo unproportionately.
5. Make alterations, additions or substitutions to the words and or colors contained in the logo.
6. Only display the Wordmark without the stamp.
The FedRAMP visual identity relies heavily on the use of color. The palette consists of a complementary range of colors to create a vibrant and bold energy.

We have adopted a strict color palette which is restricted to the colors on the right.

The goal is to produce visuals that use contrast to create visuals that are bright and engaging. To achieve this, visuals should use one predominant color and two additional colors used for accents. Try to avoid using too many dark colors together. Tints should only be used for the purposes of accents or to create a flat shadow effect.
“Section 508” refers to making sure individuals of all abilities have equal access to the information and data they seek from federal agencies or which they need to do their jobs within a federal agency.

### Color Contrast

**Minimum Compliance (WCAG 2.0 level AA):**
Requires a contrast ratio of at least 4.5:1 for normal text and 3:1 for large text.

**High-level Compliance (WCAG Level AAA):**
Requires a contrast ratio of at least 7:1 for normal text and 4.5:1 for large text.

Note: Large text is defined as 14 point (typically 18.66px) and bold or larger, or 18 point (typically 24px) or larger.

Confirm compliance using [WebAIM’s contrast checker](https://webaim.org/contrastchecker).

The GSA Star Mark

The GSA Star Mark must accompany the FedRAMP logo on all print and digital marketing materials.

The one exception is that the GSA Star Mark in not required to be used standalone graphics, such as blog banners, social media graphics, diagrams, and informational visuals.

GSA STAR MARK REQUIREMENTS

The GSA Star Mark is made up of three components: the Registered Trade Mark Designation, the Shield and the GSA Monogram. Official artwork must always be used when reproducing the GSA Star Mark. The elements are fixed and should never be redrawn or altered in any way.

Minimum Size: should never be reproduced smaller than 1/2 inch

Clearspace: The distance between the Star Mark and other graphic elements should be no less than 1/2 of the height of the Star Mark.

Star Mark Color: GSA Blue is the default application. The Star Mark in white can used on a dark background. The color contrast ratio for logo to background must be at least 3:1. Refer to page 5 for approved FedRAMP colors or confirm compliance using WebAIM’s contrast checker.

For more information, see GSA’s Brand Guide Strengthening Out Brand

APPLYING THE GSA STAR MARK TO FEDRAMP MARKETING MATERIALS

Always place it in the lower left-hand corner, adjacent to the FedRAMP contact information on the right (see below). The height of the GSA logo must be match the height of that contact information or be at minimum 1/2 inches as noted above. Star Mark and contact information must be bottom aligned.

For publicly distributed materials that will be highly visible, the following text must be displayed next to the GSA Star Mark in the following manner “FedRAMP is a product of GSA’s Technology Transformation Services.” Do not recreate this, always use official artwork.

Note: If the marketing material is comprised of multiple pages, it must appear, at minimum, on the opening and/or closing page.
We use only two typefaces to create all FedRAMP collateral, Montserrat and Muli, be sure to use these and only these typefaces.

When applying a font weight to headings, go from thin to black as letter size reduces. For example:

- **Titles** should use extra-light or light
- **Primary headings** should use regular or medium,
- **Secondary headings** would use bold or extra bold

The only exception to this font requirement is when working in the Microsoft Office Suite, Arial must be used as the FedRAMP fonts will not be available.

---

### Montserrat (For headings & call out text)

<table>
<thead>
<tr>
<th>Font Style</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thin 100</td>
<td>Regular 400</td>
</tr>
<tr>
<td>Thin 100 italic</td>
<td>Bold 700</td>
</tr>
<tr>
<td>Extra-light 200</td>
<td>Regular 400 italic</td>
</tr>
<tr>
<td>Extra-light 200 italic</td>
<td>Bold 700 italic</td>
</tr>
<tr>
<td>Light 300</td>
<td>Medium 500</td>
</tr>
<tr>
<td>Light 300 italic</td>
<td>Extra-bold 800 italic</td>
</tr>
<tr>
<td>Semi-bold 600</td>
<td>Black 900</td>
</tr>
<tr>
<td>Semi-bold 600 italic</td>
<td>Black 900 italic</td>
</tr>
</tbody>
</table>

### Muli (For body and table text)

<table>
<thead>
<tr>
<th>Font Style</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Extra-light 200</td>
<td>Regular 400 italic</td>
</tr>
<tr>
<td>Extra-light 200 italic</td>
<td>Extra-bold 800</td>
</tr>
<tr>
<td>Light 300</td>
<td>Semi-bold 600</td>
</tr>
<tr>
<td>Light 300 italic</td>
<td>Semi-bold 600 italic</td>
</tr>
<tr>
<td>Regular 400</td>
<td>Bold 700</td>
</tr>
<tr>
<td>Bold 700 italic</td>
<td>Black 900</td>
</tr>
</tbody>
</table>

Both Montserrat and Muli are both open source, provided by Google. They are free for use products & projects - print or digital, commercial or otherwise. Visit [fonts.google.com](https://fonts.google.com) for more information and to download files or copy the code to embed.
8.0 Guidance for 3PAOs and CSPs

FOR THIRD PARTY ASSESSMENT ORGANIZATIONS (3PAOs)

FedRAMP allows the use of the FedRAMP logo for FedRAMP recognized 3PAOs under the following conditions:

1. You must be a FedRAMP recognized 3PAO and maintain that accreditation in order to use the FedRAMP logo.
2. A FedRAMP recognized 3PAO can refer to themselves in the following ways:
   - FedRAMP 3PAO
   - FedRAMP Third Party Assessment Organization
   - FedRAMP recognized 3PAO
   - FedRAMP Third Party Assessment Organization
3. An organization can use the official FedRAMP logo to designate themselves as a FedRAMP recognized 3PAO.
4. FedRAMP recognized 3PAOs receive an official letter from the FedRAMP PMO designating their authorization to use the FedRAMP logo in the manner described above.

FOR CLOUD SERVICE PROVIDERS (CSPs)

FedRAMP allows the use of the FedRAMP logo for CSPs that have met the FedRAMP requirements and are deemed FedRAMP Authorized by the FedRAMP PMO. In order to use the FedRAMP logo, a CSP must have their completed security authorization package available for a federal agency leveraging within the FedRAMP secure repository.

FedRAMP Compliant CSPs

1. A CSP with this level of authorization can refer to their product or service in the following ways:
   - Meet the FedRAMP security requirements
   - Utilized a FedRAMP accredited 3PAO
   - Granted an Authority to Operate by [Federal Agency(ies)].
2. The use of the official FedRAMP logo must clearly align with the product or service named within the assessment materials used to earn the FedRAMP Authorized designation.
9.0 FedRAMP Brand Use Policy

REQUIREMENTS FOR APPROVAL

Use of the FedRAMP logo in conjunction with qualified products or services (i.e. a recognized 3PAO) does not require approval.

The FedRAMP PMO must approve any major educational or promotional campaigns that feature the FedRAMP logo prior to use. The submitted materials will be reviewed for consistency with these guidelines within two (2) weeks of receipt of the materials. Materials should be submitted to the FedRAMP Director at info@fedramp.gov with the following in the subject line: “FedRAMP Branding Review.”

LOGO VIOLATIONS

The FedRAMP PMO actively monitors proper use of the FedRAMP logo. This includes but is not limited to the use by any representatives such as advertising agencies, system integrators, resellers, partners, etc. The following explains the general course of action for addressing logo violations:

1. Anyone who misuses the logo will be contacted in writing or by telephone.

2. The FedRAMP Program Management Office will provide a distinct timeframe to correct the error(s). The timeframe will be dependent upon the medium in which the violation appeared and the severity of the violation.

3. Follow-up will be conducted to ensure that the error(s) has been corrected.

Failure to make the required changes may result in termination of a stakeholder’s participation in FedRAMP and/or legal action.

Questions about using the FedRAMP Logo?

Please contact the FedRAMP PMO at info@fedramp.gov.
This section outlines the messages that FedRAMP believes are important to convey regarding the benefits of the program. The government incorporates these messages into its materials and recommends those meeting the guidelines outlined in this document do the same, to the extent possible. The messages are:

**MISSION**
FedRAMP is a government-wide program that promotes the adoption of secure cloud services across the federal government by providing a standardized approach to security and risk assessment for cloud technologies and federal agencies.

**BENEFITS**
- Reduces duplicative efforts, inconsistencies, and cost inefficiencies.
- Establishes a public-private partnership to promote innovation and the advancement of more secure information technologies.
- Enables the federal government to accelerate the adoption of cloud computing by creating transparent standards and processes for security authorizations and allowing agencies to leverage security authorizations on a government-wide scale.

**GOALS**
- Grow the use of secure cloud technologies in use by government agencies.
- Enhance the framework by which the government secures and authorizes cloud technologies.
- Build and foster strong partnerships with FedRAMP stakeholders.
